

For immediate release:

First In Restoration joins Gwinnett Chamber of Commerce Chairman's Club

First In Restoration, a leader in water, mold and fire remediation, has joined the elite Chairman's Club of the Gwinnett Chamber of Commerce.

"We are thrilled to welcome First in Restoration to The Chairman's Club and look forward to connecting their team with valuable relationships while working together to make a positive impact throughout Gwinnett," said Margaret Phillips, the organization's Senior Membership Development Manager.

Membership in the Chairman's Club is by invitation only and is reserved for businesses and individuals who go the extra mile in supporting the chamber and the broader economic development of Gwinnett County.

"We are pleased to accept an invitation to join the Chairman's Club," First In Restoration founder David King said. "It is exciting to be part of such a vibrant, influential group that plays an important role in the area's economic development. We look forward to being actively involved in this important organization."

First In Restoration was founded in 2024 by King, a U.S. Marine Corp veteran who resides in Loganville. First In Restoration specializes in water damage restoration, mold removal and fire-damage remediation for residential, multi-family dwellings and commercial buildings throughout Georgia, with a focus in Gwinnett County and metro Atlanta.

First In Restoration is guided by the Golden Rule: Do unto others as you would have them do unto you. This lesson really hit home when an elderly friend had a dishonest company take advantage of their family during an emergency. King saw the mistreatment and realized people in distress needed a trustworthy friend to walk alongside them through the process. That has been the guiding principle of First In Restoration.

First In Restoration has helped countless families, businesses, non-profits and churches deal with water damage, mold removal and fire remediation.

First In Restoration is an IICRC certified firm and holds certification in water, fire, odor and mold removal and is a member of Restoration Industry Association (RIA), and the Atlanta Apartment Association.
